Mrs. Dangel's Class

December 6th, 2019

Michelle.Dangel@southeastpolk.org

Dear Parents,

I hope everyone had a happy Thanksgiving! The students wrote about their long weekend on Monday morning. Each Monday they will practice event writing about their weekend this month. Please review the events of the weekend with your child so they have some ideas ready. For example they may write, "We made dinner. It was fun!" or "We went to the store. We put up the Christmas tree." or "I played with my sister. We built a fort!"

During math we finished up 3D shapes with some fun activities and compare 3D shapes to 2D shapes. Our center time will include using our Chatter-kid app to find 3D shapes in the room and making them talk and using a scan app to scan QR codes for our shapes. We also started comparing numbers with a partner game, counting items on cards to compare and learning the vocabulary of greater than, less than, and equal.

In science we designed, built, and evaluated our house designs. We especially enjoyed using the leaf blower and wolf puppet to test the structure of our houses. Many houses stayed standing! On Friday we conquered a paintbrush design using available materials. We are hoping Mr. Ballagh can join us to teach a similar lesson this month as well.

We made thank you cards for our Grandview practicum student as Friday was Mr. Welsh's last day. We will miss having his wonderful help during small group reading 3 times per week! We know he will be a great teacher!

December

Mr. O is opposite

Mr. O is full of opposites! We enjoyed using some cards to find the opposites during a partner game we played twice this week. We were excited to have another vowel, or letter light to add to our reading and writing skills. We wrote about animals he likes that start with his sound and worked hard on the O puzzle on Friday. Thank you to Lily and family for the Oreos for snack Friday!

Have your child write these words for you on their own:
Pot hop job sock mom
